

DIALOGUE with INDIGENOUS LEADERS FROM BRAZIL

Deforestation, land grabbing, exploitation of labour and rampant use of pesticides threaten the environment and people in Brazil. That is why **APIB** – Brazil's Indigenous People Articulation – is touring Europe: to inform its citizens and to move governments and businesses towards action.

At this unique event at Impulse, you have the opportunity to connect with these **Indigenous leaders**. Join the dialogue and find out how we, students and researchers, can impact trade and production of agricultural commodities, as well as government actions to protect indigenous territories.

Find out more and please register at www.boerengroep.nl/Dialogue-Brazil, the QR or via Facebook

31st of October
